

I am writing in response to the new LPFM service that is due to go into effect, because if it's potential effect upon the radio station K-LOVE. I have been a K-LOVE listener for four years now, and believe it does a great deal for the communities in which it is broadcasted. It provides inspirational, Christian music that otherwise cannot be found in many areas. In my area, there are few Christian radio stations to choose from. In fact K-LOVE is only one of two available. K-LOVE not only provides music that is difficult to come by, but also provides a ministry to people in need, through it's staff pastors, 24-hour hotline, and encouraging broadcasts. Please help keep this station serving the thousands it does, so it can go on to serve more in the future.
